- Double thickness steel plate compared to low-cost providers
- Optimal, constructive design
- Withstands snow load of 150 kg/m<sup>2</sup>
- Secure against storms - anchors included

## FUNCTIONALITY

- Extensive range of standard equipment
- Easy to use
- Large selection of accessories
- Versatile, suitable for wide range of applications

## SERVICE

- Free kerbside delivery
- Short delivery time
- Photo illustrated assembly manual assists easy erection
- Direct consultation with service team available
- Assembly service available on request

Biohort stands for  
„Life in the garden“

(bios = Greek for "Life"  
hortus = Latin for "The Garden")

## Dear customers!

Biohort products are designed to offer you the best in quality, functionality and security. Our customers especially appreciate the durability and low maintenance of our storage solutions.

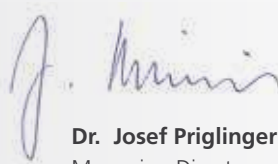

**Your continuing satisfaction is our prime concern here at Biohort**

Biohort garden sheds have proven their quality for over 30 years now. We are an Austrian manufacturing company; our highly-trained and skilled workers create our products using only top quality materials obtained from certified suppliers. Our hot-dipped galvanized steel plate is supplied by world-wide renowned German and Austrian steelworks, which also have German premium car manufacturer's trust. It is therefore with good reason and a clear conscience that we can offer our customers a **20-year guarantee** against corrosion on our products.

Our **Biohort service package** offers you many benefits: expert advice available direct from our customer service team to assist from planning through to completion as well as comprehensive information on hand at our website at **www.biohort.com**.

**Sophisticated design** and **high Austrian quality standards** applied in the manufacturing process help create products that we are sure will bring you enjoyment for decades to come.

For this I am prepared to offer you my personal guarantee.

  
**Dr. Josef Priglinger**  
Managing Director

## SETTING AN EXAMPLE IN DESIGN AND TECHNOLOGY

### The equipment shed HighLine® fulfils the highest standards

For those looking for the best in quality and design! The modern flat roof and integrated **all-around skylight** make our top product, the HighLine® conceived by industrial designers at Biohort a pleasure for the eyes to behold. The 3-way locking mechanism with cylinder lock ensures **optimum security**. The opening and closing of the door is assisted by a gas assisted spring damper. Moreover all this is **absolutely maintenance-free!**

### Advantages

- **Security:** 3-way locking mechanism with stainless steel door handle, cylinder lock and spare key
- The door is designed to be particularly robust and stable and can be fitted into any of the walls!
- An **integrated all-around acrylic skylight** provides ample light inside from all angle
- **Functional:** gutter with integrated leaf traps fitted to both sides
- **Top quality materials:** hot-dipped galvanized, polyamide coated steel plate, screws, bolts and hinges made from stainless steel
- **Extremely sturdy:** withstands snow loads of up to 150 kg/m<sup>2</sup>
- Lifelong maintenance free
- **20 years guarantee**
- Simple and straightforward assembly
- Extensive range of standard equipment included

### Sizes (in cm, external dimensions incl. roof overhang)

**Door opening:** Standard door (opens to the right): 76 x 182 cm (W x H), Double doors: 155 x 182 cm (W x H)

HighLine®

## STANDARD EQUIPMENT

## OPTIONAL ACCESSORIES

### STAINLESS STEEL-DOOR HANDLES & FITTINGS

A 3-way locking mechanism including cylinder lock prevents unwanted entry. The door construction is particularly sturdy and secure.

### GAS ASSISTED SPRING DAMPER

Not only provides welcome assistance when opening and closing doors, but also holds the door firmly in position.

### GUTTER WITH INTEGRATED LEAF TRAP

With connector provided for 1" hose.

### VENTILATION SLOTS

Ensure adequate air circulation.

### ACRYLIC GLASS FANLIGHT

An integrated acrylic skylight fitted on all sides provides ample light inside.

### ROOF INSULATION

HighLine® is already prepared to allow for easy installation of polystyrene panels (3 cm thick) to insulate the roof.

### SHELF SET / SUPPORT RAILS

**Standard equipment:** 2 shelves (depth: 21 cm), 4 brackets and 2 support rails.

Additional shelves of 21 cm or 51,5 cm depth and support rails are available separately as accessories.

### TOOL HANGERS

to hang away spades, rakes, garden hoses and other garden tools.

**4 pieces are supplied as standard.**

### TOOL HOLDERS

are fitted to the inside of the doors. A maximum of 5 tool holders can be fitted to one door. **2 tool holders supplied as standard**

Technical details as well as detailed information regarding foundations

can be found on pages 30-35

#### A **DOUBLE DOORS** (LEFT DOOR WING ADDED TO THE STANDARD DOOR)

The addition of a left door wing to your garden shed increases accessibility and allows larger equipment to be stored inside. The 2nd door is fitted with a door locking mechanism and gas assisted spring damper. For she size H2 the 2nd door must be fitted into the longer wall.

#### B **SIDE DOOR** (FOR INSTALLATION IN SIDE WALL WITH STAINLESS STEEL DOOR HANDLES)

To allow access to your garden shed from two sides, install an extra door in the side wall. Included in the delivery are a stainless steel door handles, 3-way locking mechanism, gas assisted spring damper, hinges, 2 tool holders, doorposts and all attaching parts required. The door opens only on the right side.

#### **ALUMINIUM FLOOR FRAME**

Offers the equipment shed additional stability when erected without a foundation on uneven ground (i.e. lawn). The ground anchors supply guarantee safety in stormy weather.

#### **ALUMINIUM FLOOR PANELS**

Manufactured from high quality aluminium chequered plate, depending on shed size the floor consists of 3-4 panels, connecting rails included. To ensure optimal effect usage with aluminium floor frame is required (see [www.biohort.com/foundation](http://www.biohort.com/foundation)).

#### **RAIN WATER DOWNPIPE**

2 downpipes (L = 204 cm) in shed colour including outlet elbows and all necessary attaching parts.

#### **FOLDING TABLE**

The space-saving folding table can be easily slotted into 2 shelf rails. It quickly provides you with a sturdy work space. Load bearing capacity: max. 30 kg, size 69 x 58 cm

#### **BICYCLE HOLDER "BIKEMAX"**

Height adjustable in 8-different positions and suitable for bikes with up to 29" wheels, integrated loop for bicycle lock included.

#### **THRESHOLD ACCESS RAMP**

Can only be used when double doors are fitted, delivered in two parts for fitting inside and outside it makes crossing the threshold much easier - only required when floor frame is fitted. Must be removed before closing the doors! Load capacity: max. 200 kg; length: 135 cm

# AvantGarde

AvantGarde, size: L, colour: metallic silver

## QUALITY AT A REASONABLE PRICE

### Everything tidy and well organised with this "classic" design from Biohort

Proven and tested for decades now and still up-to-date! More than 100,000 examples have been sold and the proud, satisfied owners bear testament to the success of our Garden Shed "Europa". The reasons are clear: its highly stable and functional design combined with durable materials and low maintenance. An extensive selection of standard equipment plus a range of well thought out accessories help create order and make working in the garden a pleasure.

### Advantages

- **Top quality materials**, combined with robust construction
- **20 years guarantee**
- Lifelong **maintenance free**
- Hot-dipped galvanized, polyamide coated steel plate
- **Double the thickness of steel plate** compared with cheaper competitors
- **Extremely sturdy**: will withstand snow loads of up to 150 kg/m<sup>2</sup>
- Screws, bolts, connectors and hinges all made from **stainless steel**
- **Twist grip with cylinder lock** spare key included
- **Simple to erect** thanks to photo illustrated assembly manual
- Extensive range of standard equipment included

### Sizes (in cm, external dimensions incl. roof overhang) door opening: 135 x 171 cm (W x H)

Thanks to the narrow depth, **sizes 2A and 4A are particularly suitable for attachment to a house or garage wall.**

2 extra brackets are included in the delivery to secure these sheds onto a wall.

For shed sizes 2A thru to 7, the double doors can be installed off-centre. For shed sizes 4, 5, 6, and 7 doors can also be installed in the side wall.

Europa

## STANDARD EQUIPMENT

## OPTIONAL ACCESSORIES

### TWIST GRIP CYLINDER LOCK

Double locking mechanism provides security against unwanted entry. The door construction is particularly stable and secure.

### 2 INTEGRATED GUTTERS

With connection for 1" garden hose to collect and divert rainwater

### SHELF SET / SUPPORT RAILS

**Standard equipment:** 2 shelves (depth: 21cm), 4 brackets and 2 support rails. Additional shelves of 21 cm or 51,5 cm depth and support rails are available separately as accessories.

### TOOL HANGERS

to hang away spades, rakes, garden hoses and other garden tools.

**4 pieces are supplied as standard.**

### FOLDING TABLE

The space-saving folding table can be easily slotted into 2 shelf rails. It quickly provides you with a sturdy work space. Load bearing capacity: max. 30 kg, size 69 x 58 cm

### ORGANISER SYSTEM

Integrated organiser system fitted to the inside of doors (6 plastic hooks included).

### SIDE CANOPY

Can be attached either to the left, to the right or to both sides of the shed. The set includes all the attaching parts and supports required for fitting. (Not available for shed sizes 1 and 2A).

Technical details as well  
as detailed information  
regarding foundation

can be found on **pages 30-35**

## A ADDITIONAL OR EXTRA-WIDE DOUBLE DOORS

It is possible to install **extra standard doors** to "Europa" (i.e. by fitting in the side wall). You can also order an **extra wide double door** with dimensions: 171 x 171 cm – to replace or supplement the standard door for your Biohort Garden Shed – (note: this can only be installed off-centre).

Two Garden Sheds "Europa", size 7 combined (with standard door installed in the sidewall and an extra wide double door fitted in the front wall)

## B SHED EXTENSION

Connecting modules are available for 244 cm or 316 cm wide. In this way two sheds can be joined in length to form a single large house. At the two gables additional profiles help support and connect the two combined sheds, the headroom at this point is 171 cm (same as door clearance height).

At **floor level** there is **no interfering connections** and from outside the **connecting points** on the side wall and roof are disguised with **covering plates**. An existing front wall with door and a rear wall are replaced by the necessary connecting parts during assembly. Please enter the dimensions and details of the desired variant when placing your order!

Gable connection between two combined garden sheds "Europa"

### ALUMINIUM FLOOR FRAME

Offers the equipment shed additional stability when erected without a foundation on uneven ground (i.e. lawn). The ground anchors supplied guarantee safety in stormy weather.

### ALUMINIUM FLOOR PANELS

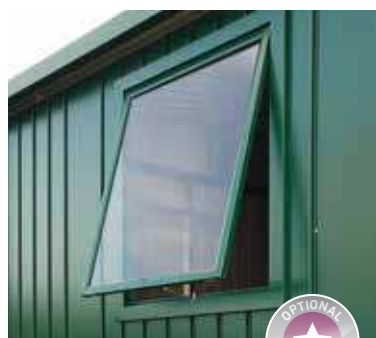

The floor consists of 1 - 5 high quality aluminium chequered plate panels depending on size of shed, connecting rails included. To ensure optimal effect usage with aluminium floor frame is required (see [www.biohort.com/foundation](http://www.biohort.com/foundation)).

### RAIN WATER DOWNPIPE

2 downpipes (L = 170 cm\*) in shed colour including outlet elbows and all necessary attaching parts.

\*(L = 150 cm when fitted to side canopy, please state correct length when ordering)

### WINDOW-UNIT

Complete sidewall unit with a metal framed clear plastic window allows daylight into the garden shed. Window size 50 x 58 cm

### BICYCLE HOLDER "BIKEMAX"

Height adjustable in 6-different positions and suitable for bikes with up to 26" wheels, integrated loop for bicycle lock included.

### THRESHOLD ACCESS RAMP

Two part door ramp for fitting inside and outside of shed makes crossing the threshold easier - only required when floor frame is fitted. Must be removed before closing the doors! Load capacity: max. 200 kg, length: 135 cm

# Annexe CasaNova®

Annexe CasaNova®, size 3 x 4, colour: metallic dark grey  
(2nd door wing, aluminium floor frame and aluminium floor panels available as accessories)

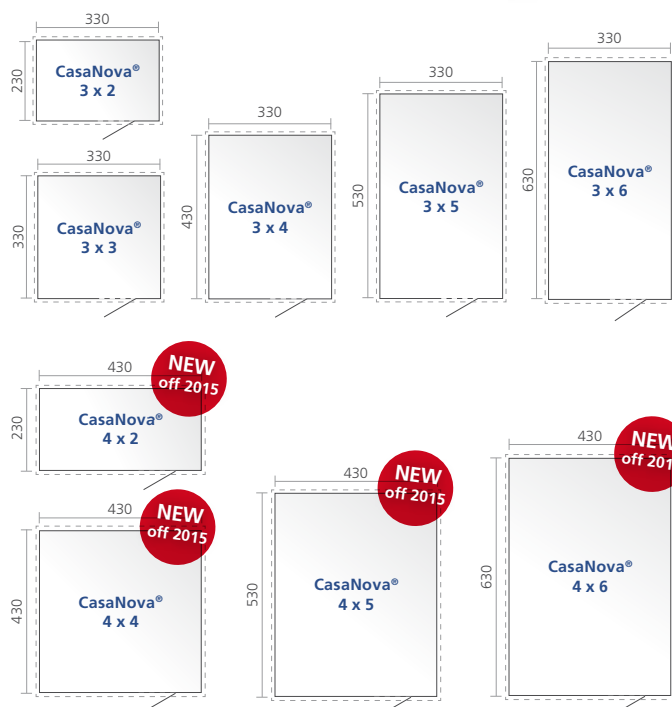

METALLIC SILVER

METALLIC DARK GREY

**Sizes** (in cm, external dimensions incl. roof overhang)

**Door opening:** standard door: 90 x 198 cm (W x H)

## THE HIGH-END METAL SHED WITH INSULATED SIDE WALLS

### "The Cavalier at its best"

What others call luxury is already included in the standard equipment of the design-Annexe of CasaNova®. The basis is the unique insulation. You will appreciate features like the gas assisted spring damper at the door. The modern design makes it a real eye catcher.

### Advantages

- can be heated thanks to **insulated design**:  
U-value of side walls = 0,76 W/(m²K)
- an additional heat insulation with XPS- polystyrene on the roof is possible
- **Door hinge position** (left or right) as suitable
- **Top quality materials**: extruded aluminium sections and sandwich panels made of hot-dipped galvanized, polyamide coated steel plate **with an insulated core of 40 mm polystyrene (EPS20)**
- no screws and bolts visible on the outside
- **lifelong maintenance free** - no more painting
- Screws and hinges made from stainless steel
- large selection of accessories
- **simple assembly** thanks to modular design and detailed assembly manual incl. 3D-drawings
- **Sturdy construction**: withstands snow loads of up to 215 kg/m² less roof loading e.g. greening

Fig. size 3 x 5 m,  
colour metallic dark grey

### A SECTIONAL OVERHEAD GARAGE DOOR (MADE BY HÖRMANN)

For all those who place high value on comfort. 42 mm thick lamellae ensure stability and best insulation. An integrated finger anti-trap protection, an anti-fall prevention system and an optional electrical motor with remote control are just a few of the numerous advantages of this garage door. Colour: silver  
Dimensions of door opening: 237.5 x 200 cm (W x H)

### B SIDE DOOR (FOR INSTALLATION IN ANY WALL WITH STAINLESS STEEL DOOR HANDLES)

Can be fitted in any wall of the Annexe and makes our CasaNova® accessible from two sides. Included in delivery: a stainless steel door handle, cylinder lock, gas assisted spring damper and an extra door sill.  
Size: 95 x 200 cm (W x H)

### C ALUMINIUM TILT AND TURN WINDOW

This high quality double glazed window allows extra daylight into the Annexe (Frame size 83 x 65 cm, fitted height 119 cm from lower edge of outer frame).

### 360° ACRYLIC GLASS-FANLIGHT

Ensures adequate daylight illumination from all sides.

### STAINLESS STEEL DOOR HANDLE

and cylinder lock, incl. spare key

### RAIN WATER DOWNPIPE

two gutters with rainwater downpipes guarantee a smooth and efficient run-off of rainwater from the roof.

### ALUMINIUM FLOOR FRAME

Gives the Annexe the necessary stability even without a concrete foundation. The gravel for the floor frame must be leveled. The ground anchors supplied guarantee safety in stormy weather

### ALUMINIUM FLOOR PANELS

Manufactured from high quality aluminium chequered plate, depending on shed size, the floor consists of 4 - 12 panels, connecting rails included. To ensure optimal effect usage with aluminium floor frame is required.

### EXTERNAL SPOTLIGHTS

This turns the CasaNova® into a real highlight. The cut-outs (Ø 51 mm) provided at the front allow spotlights to be installed (not included in delivery).

## QUALITY

### Quality material ensures a lifetime free of maintenance

Biohort uses only the best materials to manufacture its products. For painted parts, **hot-dipped galvanized steel plate** with a thick protective zinc coating of at least 150 g/m<sup>2</sup> and an additional „**enamel coating**“ of polyamide is used. Our hot-dipped galvanized steel plate is supplied by worldwide renowned German and Austrian steelworks, which also have German premium car manufacturer's trust.

All other metal parts are either made from stainless steel, aluminium or galvanized sheet steel with a 275 g/m<sup>2</sup> thick zinc coating. The use of top quality materials ensures that Biohort can confidently offer a **20 year guarantee** against corrosion. We have never had a related warranty claim in this regard in our company history.

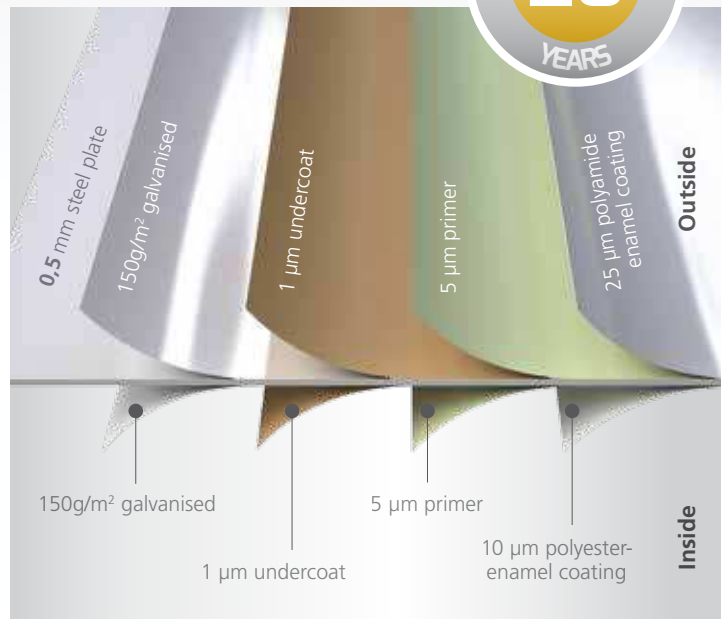

Photo shows Garden Shed HighLine®

#### RELIABLE SECURITY : LOCKING MECHANISM AND CYLINDER LOCK

Our 2- or 3-way locking mechanisms prevents intruders gaining access to your property. Our products are built to meet Austria's highest quality manufacturing standards.

#### SCREWS AND FITTINGS MADE OF STAINLESS STEEL

Low-cost manufacturers use screws and fitting made of galvanized metal, which results in corrosion damage after a few years. **Biohort prides itself on uncompromising quality:** all metal parts are hot-dipped galvanized (ensures a very thick protective layer of zinc) and all fasteners, screws/nuts and fittings are made of stainless steel

#### STABILITY

Biohort Garden and Tool Sheds are manufactured from steel plate with double the thickness compared with other low-cost manufacturers, this ensures our sheds are highly stable and robust (our sheds will withstand snow loads of 150 kg/m<sup>2</sup>). Costlier materials, aluminium profiles and the use of stainless steel screws all contribute to the durability of our products.

## METAL - IDEAL FOR THE OUTDOOR USE

For garden and tool sheds that have to stand outdoors all year-round **metal is clearly the better choice!**

### WOOD

- Time-consuming painting in your spare time costs money and nerves.
- Where moisture collects the affected wood can begin to rot after a few years.
- Wood expands and contracts. The results are jammed doors and cracks and splits in the wood.
- Painted or varnished wood surfaces must be treated repeatedly. Untreated wood will quickly become unsightly.
- Wood burns easily. For this reason, the use of wood and plastic is forbidden on camping sites.

### METAL

- No more painting – use your valuable time for the essential things in life.
- Thanks to galvanizing and enamel finishes metal remains durable for generations. 20 years warranty!
- The high quality steel used by Biohort does not deform and remains in shape for years.
- The colour of enamelled steel plate remains attractive for years and can be easily cleaned (even with a high pressure cleaner).
- The hot-dip galvanized, polyamide enamel coated steel plate used by Biohort is fireproof in acc. with EN 13501-1 (Class "A1").

## SERVICE

### LIEFERUNG FREI HAUS

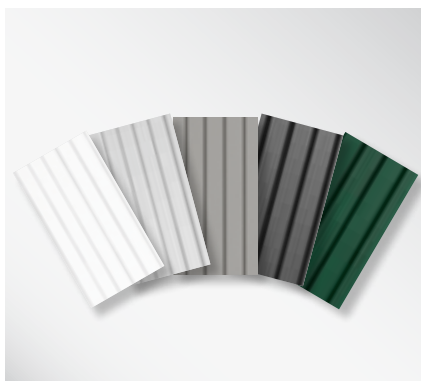

Dispatched within 2 to 4 workdays!\*

We will deliver your order free of charge directly to your home address (free kerbside delivery).

The address given must be accessible to a 38t-lorry.

\*Excluded CasaNova®; Delivery costs on request

### BIOHORT COLOURS · [WWW.BIOHORT.COM/](http://WWW.BIOHORT.COM/) DEALER SEARCH

Off printing reasons the pictured colour in our folder can deviate from the real colour. The used colour coating is especially produced for Biohort and do not accord with a RAL- number. All Biohort dealers have an original colour sample, so we suggest you to have a look before buying. Dealers next to you can find on „**dealer search**“ under **[www.biohort.com](http://www.biohort.com)**

Other options and optional accessories you will find in the extra folder

# FOUNDATIONS

## 3 OPTIONS FOR ACHIEVING A SECURE ANCHORAGE (For all Garden Sheds and Tool Sheds, non-binding recommendation)

### Option 1 ALUMINIUM FLOOR FRAME AND FLOOR PANELS ON GRAVEL

With the **aluminium floor frame (accessory)**, the Shed can be set up on uneven ground **and anchored against the storm** (ground anchors are included). The aluminium floor panels (accessory) can be installed as shown.

### Option 2 ALUMINIUM FLOOR FRAME ON PAVING SLABS

An effective solution can be achieved by laying paving slabs in a gravel-bed. You can secure the shed to the slabs with the ground anchors provided.

### Option 3 CONCRETE FOUNDATION

A **reinforced concrete foundation** in a gravel bed is the optimal solution (see foundation dimensions). This type of foundation provides a level, dry place to secure your Garden Shed **against any storm**. Anchors and plastic dowels are included with the standard delivery.

Further details about foundations you will find on

[www.biohort.com/foundation](http://www.biohort.com/foundation)

## Do you still have any questions?

You can find the following at [www.biohort.com](http://www.biohort.com)

- Assembly manuals to download
- Answers to frequently asked questions (FAQs)
- Personal advisor
- Foundation details
- Dimensions, technical details
- Online -Configurator "Biohort in my garden"
- Dealer search and much more

Irregardless which type of foundation is chosen, it is most important to ensure a storm proof anchorage is achieved (see illustration).

### HighLine®

The ultimate tool shed, which in every respect meets all the requirements for safety and functionality: available in 5 sizes and 3 colours - white, metallic silver and metallic dark grey

### AvantGarde

Fits in well with modern architecture and provides you with a lifetime of satisfaction: available in 4 sizes and 3 colours - metallic silver, metallic dark grey and dark green

### Europa

Everything kept neat and tidy and a lifelong free maintenance with this classic from Biohort: available in 9 sizes and 4 colours - metallic silver, quartz grey, metallic dark grey and dark green

### EQUIPMENT LOCKER

Where space is tight, it shows its classic – in the garden, on the patio or in the garage: available in 3 colours - metallic silver, metallic dark grey and dark green

### WoodStock®

Firewood and equipment storage: a cabinet that is also suitable for easy wall mounting: available in 2 sizes and 2 colours - metallic silver and metallic dark grey

### StoreMax®

With its functional design StoreMax® provides maximum storage space in the smallest place: available in 3 sizes and 3 colours - metallic silver, quartz grey and metallic dark grey

### HighBoard

The perfect multitalent for easy storage: available in 3 colours - white, metallic silver and metallic dark grey

### LoungeBox®

The design-box for high demands – a jewel for terrace and garden: available in 3 colours - white, metallic silver and metallic dark grey

### LeisureTime Box

It packs away all the loose items for which you cannot find a suitable storage place: available in 4 sizes and 4 colours - white, metallic silver, metallic dark grey and dark green

### Annexe CasaNova®

The first insulated design-annexe: available in 9 sizes and 2 colours - metallic silver, metallic dark grey
