Awnings Patio roofs Glasoasen®

... why Terrazza Pure is just the right solution **FOR YOU!**

Terrazza Pure is the **perfect weather protection solution** to bring **as much light** as possible to patios in Northern and Central European regions with less sun and more rain – and all in an elegant cubic design. The new cubic glass patio roof design is something really special: as the combination of its cubic shape and glass-covered roof is only offered by a few manufacturers on the market **in a quality that doesn't come close to weinor's**. Use this competitive edge to gain new customers!

Terrazza Pure

5 BENEFITS FOR YOU!

1

Cubic glass roof ▶ A clear competitive advantage

Terrazza Pure is one of the highest quality cubic patio roofs on the market with straight roof supports and fixed, supported glass supports for an integrated glass slope. ★ **Your benefit:** high potential for new customers, clear advantage in sales

2

No sloping roof ▶ Higher head clearance height

Thanks to its cubic design, there are no slopes between the wall bracket and front guttering. ★ **Your benefit:** even lower connection heights are possible

3

Colour LED strips and decorative strips ▶ Customised design

Terrazza Pure can be fitted with innovative coloured LED strips and decorative strips, among other things. ★ **Your benefit:** many new features with which you can cater to your customer's personal tastes

4

Integrated electronics ▶ Fast cable laying

Pre-equipped cabling, Plug&Play, easily accessible electronics. ★ **Your benefit:** faster and safer connection of all drives, lights or heating on the roof

5

Rectangular construction ▶ Easily extended into a Glasoase®

The glazing elements (GE) and sun protection can be easily fitted under the roof supports and roof gutter without any slopes. ★ **Your benefit:** less GE profiles, fast installation, extremely easy retrofitting

NEW!

Terrazza Pure

5 BENEFITS FOR YOUR CUSTOMERS!

1

New cubic shape ► More selection options

Besides the classic shaped Terrazza, there is now also a cubic style of roof available. ★ **Benefit for your customers:** more selection options, attractive alternative for buyers with a liking for modern architecture

2

Innovative glass support system ► Integrated pitch, extremely stable

weinor has developed a unique glass support system for the glass support for Terrazza Pure. ★ **Benefit for your customers:** very stable, even with high snow loads up to 550 kg per m², reliable drainage thanks to integrated pitch with shape that looks straight from the outside at the same time

3

New lighting concept ► Variety of design versions

Posts and roof supports can be equipped with high-quality colour LED strips. ★ **Benefit for your customers:** great lighting options to suit personal tastes, now also possible with coloured light

4

Elegant decorative strips ► Customised design

Posts and roof supports can now be decorated with 5 decorative strips. ★ **Benefit for your customers:** various possibilities to custom design the Terrazza Pure glass roof to suit personal tastes.

5

No problems extending it ► More weather protection, a seamless design

Terrazza Pure can be extended with a full-glass sliding door, conservatory awning and the VertiTex II vertical awning. ★ **Benefit for your customers:** greater comfort due to more privacy and glare protection as well as sun and weather protection, the VertiTex II can be perfectly and seamlessly integrated using the VertiPlus version, affordable retrofitting

The colour LED strips can only be operated using the weinor BiConnect radio control. **One hand transmitter for everything:** all the electrical applications, such as the lighting, heating system, vertical and conservatory awnings can be controlled with the BiEasy 15M Go! hand transmitter.

GOOD REASONS, ...

... why Terrazza Pure
is just the right solution
FOR YOUR CUSTOMER!

Terrazza Pure is bursting with clever innovations that will impress your customers. The **rectangular design** harmonises perfectly with linear architecture, however old the building is. With the new **lighting concept**, users can design their patio to suit their personal tastes and there is a huge variety of possible colour combinations. This also applies to the new anodised aluminium **decorative strips** for the posts and roof supports. This spectacular variety in terms of design is sure to impress your customers too!

Terrazza Pure – just now in your showroom

Terrazza Pure with its modern, cubic design including colour LED strips and decorative strips is a real highlight in terms of design. Its impact is best revealed using an original size sample. Order a Terrazza Pure sample now for your showroom!

Terrazza Pure end customer brochure

The weinor "Now cubic" brochure impressively communicates the modern design and sophisticated technology.

Coming soon: Terrazza Pure video

Show your customers the weinor video on the new cubic glass patio roof, e.g. on your tablet.

A1 large poster

laminated
W 594 x H 841 mm

Draw your customers' attention to the Terrazza Pure with our three poster formats: the attention-grabbing A1 poster to use, for example, as your customer stopper, the impressive mega poster with crease-free awning fabric and a large A0 poster with the cubic glass patio roof's highlights (large poster and mega poster can only be used in combination with the aluminium frame).
