CABINEX KITCHENS

Welcome to Cabinex[™] outdoor kitchens.

Beauty & functionality rolled into one. Market leading appliances, premium materials and award winning services are brought together to make your Outdoor BBQ Kitchen everything you've ever wanted.

MODULAR AND CONTEMPORARY

Create the outdoor kitchen of your dreams with the Cabinex[™] Pro series for a special and exclusive kitchen that's tailored to your own style.

You can design your dream outdoor kitchen by mixing and matching our range of modules, door colours, worktop and of course appliances. With this range and flexibility, you will have an outdoor kitchen that will broaden your cooking experience.

CABINEX KITCHEN FEATURES

MATERIALS

Cabinex[™] have combined high quality materials expected by the chef in all of us. Surfaces which are nice to touch and easy to clean. Waterproof and resistant to scratching, high temperatures and UV rays, these benchtops are designed and built to withstand the variable European climate, from heavy rain to hot sunny days.

BLACK PORCELAIN WORKTOP

WATERFALL ENDS

DOOR FINISHES

The doors are made from 6mm compact laminate panels with black annodised aluminium edging and are the ultimate lasting, low maintance product.

They suit most demanding, hard working enviroments. Totally impervious to water they have a beautiful apparance and outstanding stain and wear resistance.

CB KITCHENS

The CB Outdoor Kitchen offers the highest quality and is the ideal choice for cooking enthusiasts who want to cook and grill outdoors all year round - whether on the balcony, in the garden or on the terrace.

Thanks to their simple and flexible assembly system, the kitchen elements can be individually assembled and expanded as needed. The processed materials sintered ceramics and steel not only look good, but also provide years of guaranteed cooking fun.

MODULAR AND HIGH QUALITY

The CB Outdoor Kitchen creates space for your own ideas.

Due to a large selection of various high-quality modules, each outdoor kitchen can be individually designed and conceived according to your own taste and available space.

All CB Outdoor Kitchen modules are manufactured exclusively in the CB production facilities in Allgäu (Germany). With 50 years of experience, the complete metal processing and coating is carried out in the highest industrial quality. At CB-tec, the industrial processing of large ceramic materials takes place. The unique combination of high-performance industrial production with many years of experience guarantees first-class results, ensuring the highest processing quality, great vertical range of manufacture, and seamless quality control.

CB KITCHEN MATERIALS

For extreme resistance and durability, all CB Outdoor Kitchen countertops and side panels are made exclusively of high-quality ceramics, and an impressive 12 mm thickness, from leading brand manufacturers. In addition to the visual qualities, the unique physical properties of ceramic makes it perfect for outdoor use.

We rely on high-quality steel from Kollinger Metallbau, a renowned specialist in metal construction. Kollinger stands for the highest level of expertise and over 40 years of experience. Kollinger's steel stands for quality, durability, and aesthetic design.

SINTERED CERAMICS WORKTOPS

Sintered ceramics are compacted using the most advanced technology and fired at over 1200 degrees Celsius. The extremely resilient material is, among other things, scratch-resistant and UV-resistant. The sintering process brings together all the advantages of all natural raw materials to create a practical and aesthetic solution. Sintered ceramic is not only easy to clean, but also very hygienic.

the highest quality and is
the ideal choice for cooking
enthusiasts who want to
cook and grill outdoors
all year round.

BURNOUT KITCHENS

Crafted in Germany, Burnout outdoor kitchens epitomize unmatched craftsmanship. With precision in every cut, perfection in every weld, exactness in every seam. For more enjoyment and greater durability.

Burnout outdoor kitchens are easily compatible with a variety of grill and hotplate manufacturers, such as Napoleon, Broil King or Kamado Joe. Burnout outdoor kitchens are built for the outdoors. Made of high-quality stainless steel, weather-resistant and UV-resistant materials, and hardware that has been certified for outdoor use. So they last: At least ten years. Guaranteed.

MODULAR

Burnout outdoor kitchens can be modified as your needs evolve. Even years from now, you will be able to expand it without any alterations in the colour scheme.

SUSTAINABLE

Burnout outdoor kitchens are extremely durable. And at the same time, they are fully recyclable at the end of their life.

Because withstanding wind and weather does not mean being limited to using PVC. Quite the opposite: only PVC-free materials are used to build our kitchens.

EO KITCHENS

Forged from experience and passion, EO kitchens are created to bring the functional attributes and aesthetic qualities of a premium kitchen to the outdoor space.

Designed and made in the UK, EO kitchens are made from high-specification materials. Powder-coated stainless steel modular frameworks, Dekton ceramic worktops and composite Millboard frontals make it fit for purpose in the Irish climate.

PREMIUM MATERIALS TO CHOOSE FROM

FRONTALS AND PANELS

Millboard is a premium composite timber effect material, which we use for the frontals and panels of our kitchens. Commonly used for decking and building cladding, we offer it in a range of seven different finishes. Moulded from real wood, it is guaranteed not to splinter, warp, rot of fade.
